

EPICBuild

**EPICBuild EPC (Engineering,
Procurement & Construction)
Industry Template Solution
for EPICOR ERP On the
RheinBrücke Cloud**

Introduction

The EPC Industry is changing at a rapid pace. Major trends like smart cities, complex commercial construction projects and infrastructure upgrades present huge opportunities to EPC firms in the years ahead. However, the industry also faces numerous challenges in different areas right from Project Planning to Execution. The perennial issues of fluctuating raw material prices, skilled workforce availability, inventory management and dynamic scope changes makes it tougher to complete projects on time avoiding cost and schedule overrun. In these circumstances it is imperative for EPC companies to focus on embracing digital technologies for retaining market position, increasing service revenues through new business models and faster decision making.

Key Challenges in the EPC Industry

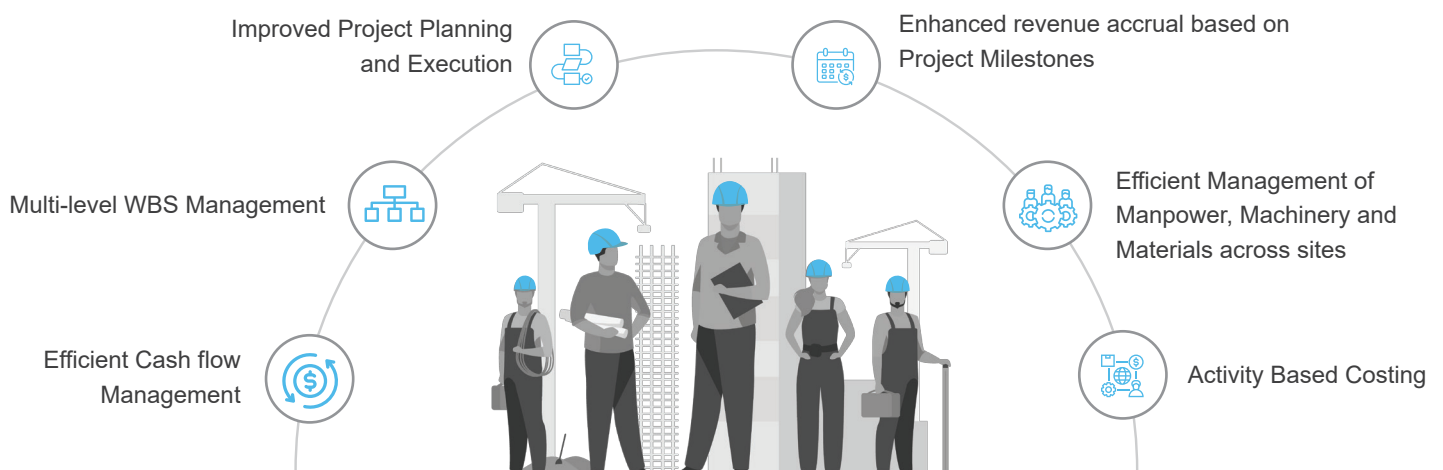

The capital-intensive EPC industry requiring stringent project costing and site management, calls for a very high degree of visibility on project status and cash flows while ensuring the regulatory compliances. An ERP solution that connects your people, systems, and processes gives you this much-needed visibility. The right ERP with functionalities to manage the complexities of your EPC or construction business is key to compete with nimbler, emerging market players as well as to drive gains in productivity, product quality, and operational efficiency.

EPICBuild

EPICBuild from RheinBrücke is the ready to deploy industry vertical EPC template solution for Epicor ERP on the RheinBrücke Cloud. The solution combines the powerful features of Epicor ERP, RheinBrücke’s deep EPC industry knowledge and benefits of the Cloud.

Benefits of EPICBuild

EPICBuild - An ERP Solution built for Engineering, Procurement and Construction Industry

EPICBuild is a full feature ERP solution for managing all aspects of EPC Projects from proposal and bidding to commissioning and operation.

Built-in capabilities to track contracts and project schedule

Build Project Execution Plan and project cash forecast from the system

Management of BOQs (Bill of Quantities)

Management of Fixed Assets across projects

Detailed multi-level Work Breakdown Structure (WBS) management

Procurement Management with powerful capabilities to deal with intensive back to back procurement needs of the industry

Integration with MS Project / Primavera

Maintenance of machines and equipment

Estimate, budget and analyze cost and cash flows at the lowest level with accurate Budgeting and Accounting

Integration with project management tools and CAD/-CAM software

Online visibility of cost at completion and capability to capture any exceptions

Embedded CRM, SRM, APS, MES solutions

Fully Integrated System with Material, Manpower, Equipment and Site Camps

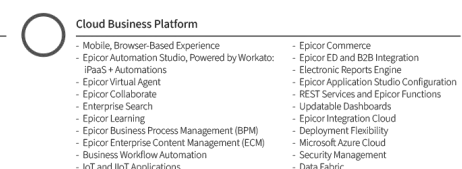

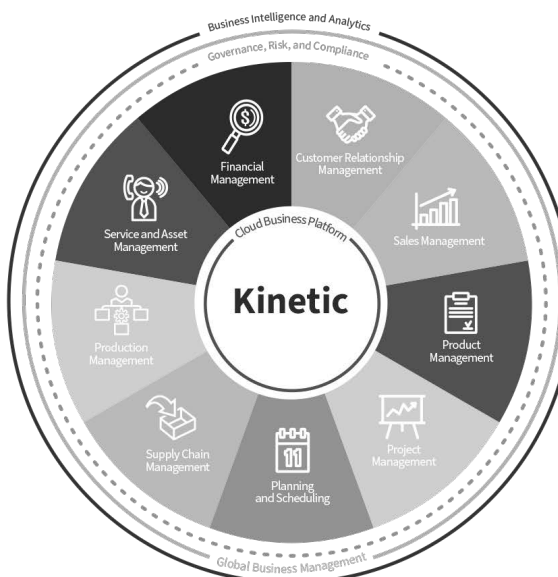

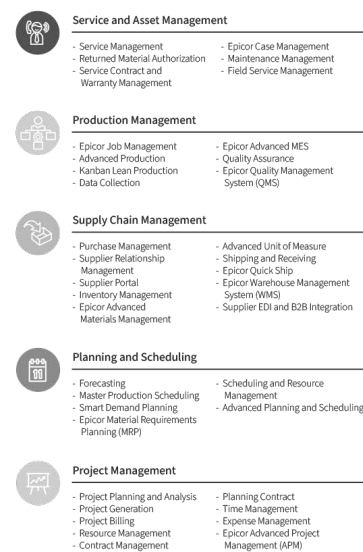

Enterprise Performance Management with Built-in Analytics and Executive Dashboards

Document project progress in terms of completed quantities to generate payment demands

Epicor ERP

EPICBuild - An ERP Solution Designed to be your New Construction Partner

The pre-configured solution helps EPC companies like yours implement the latest Enterprise Management solutions tailored for your business needs, faster and at the lowest total cost of ownership, ensuring a faster time to value. EPICBuild takes care of every aspect of your EPC business from sub-contractors to materials outsourcing jobs and from plant management to mobile assets and labour in the field with greater visibility and efficiency across your projects.

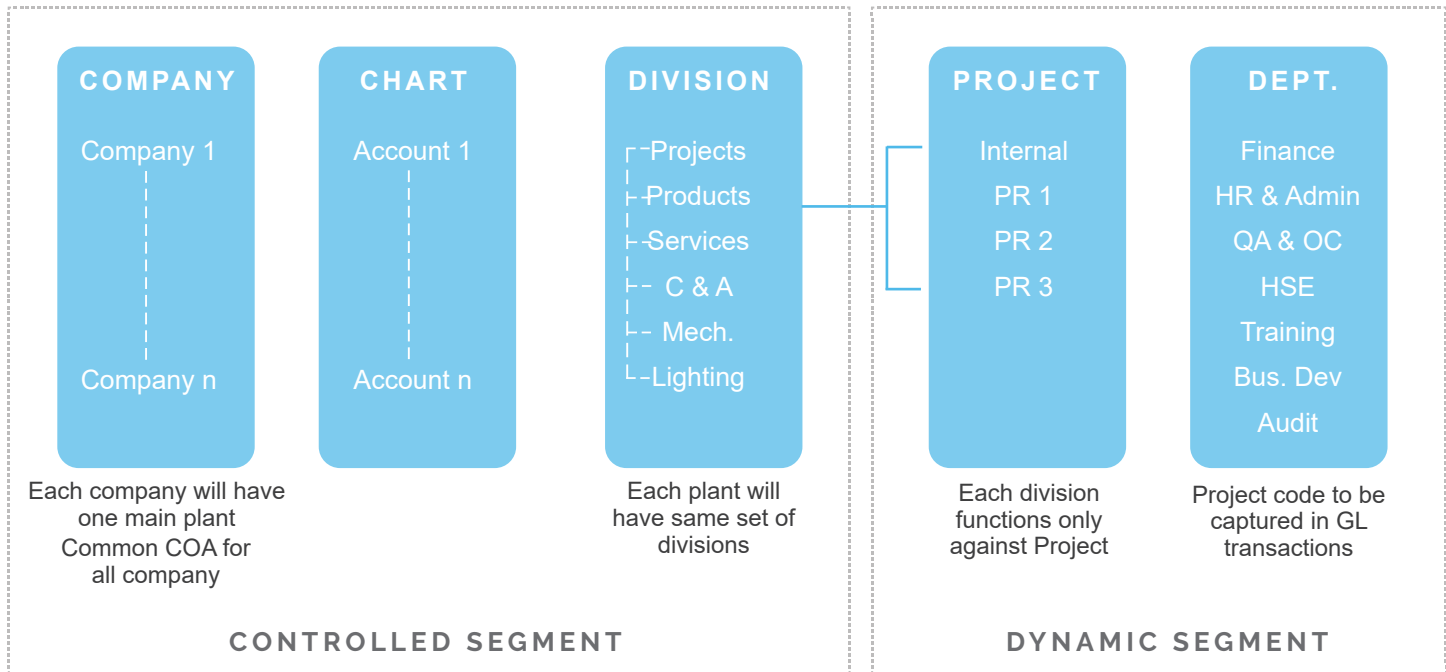

The solution's template is developed by RheinBrücke's experts based on proven best practices aggregated from our multiple industry implementations across the world and can be adapted quickly to meet the specific needs of your business to ensure more value from your ERP implementation.

Leverage the Benefits of Cloud with EPICBuild

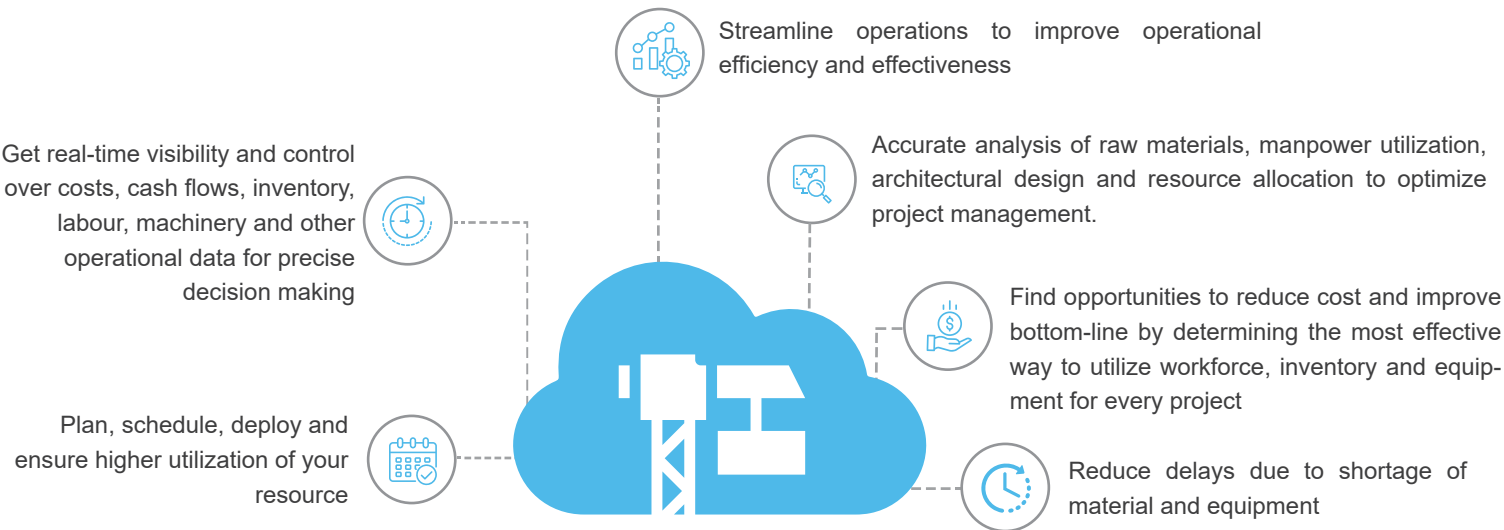

- Highly Scalable and Flexible
- Lower Total Cost of Ownership
- No Hassles of IT Infrastructure/Maintenance
- Fast Deployment
- Heightened security
- Mobility
- Faster Time to Value

Epicor Structure for EPC Industry Solution

EPICBuild allows you to effectively collaborate with stakeholders across the supply chain, minimize cost and schedule overruns, control project risks and issues.

The RheinBrücke Advantages

Deployment on the RheinBrücke Cloud

The solution is deployed on the highly secure RheinBrücke Cloud hosted in the Moro Hub Datacenter. The modern cloud deployment gives you added advantages of lower cost, flexibility and frees up your time and resources spent on maintenance. Maintenance, Security and Business continuity are all part and parcel of the solution.

RAPID Implementation using SCALE Methodology

RheinBrücke's standardized SCALE methodology driven by industry best practices ensures a successful ERP implementation in a short time span by minimizing risk and maximizing predictability with clearly defined deliverables and processes. It is a scalable approach for implementation that is designed to address your needs based on the foundation elements – Solutioning, Consulting Expertise, Agile Practices, Learning and Enablement.

RheinBrücke Academy

We offer a comprehensive Learning Management platform for our customers to ensure effective training of end users as well as key users and administrators. . The platform provides interactive simulation-based learning content which ensures 100% module coverage for all your users.

Support

RheinBrücke's Omnichannel Support driven by a robust ticketing system ensures that your business users have the support and help readily available from our large pool of Epicor Certified professional engineers who have worked on multiple complex global ERP implementations.

Case Study

EPC Contracting, Manufacturing & Maintenance Company Streamlines Enterprise-Wide Business Processes

What They Do?

EPC Contracting, Manufacturing and Maintenance Company specialized in design, engineering, project construction, fabrication, painting and testing & maintenance activities across Oil & Gas, Refineries, Petrochemicals and Power Industries

RheinBrücke's Solution

EpicBuild template solution for Epicor was implemented using RheinBrücke's highly standardized SCALE methodology and industry specific template that is designed to accelerate the client's growth by supporting all their key processes.

- Synchronized varied operations across the group in single platform.
- Streamline processes and improve efficiency by elimination redundant processes
- Enabled key users with required information for quicker decisions
- Seamless integration with third party tools and applications
- Implemented budgetary control and cost tracking to monitor & prevent deviations.
- Devised material planning methodologies to optimize inventory and WIP

Key Business Challenges

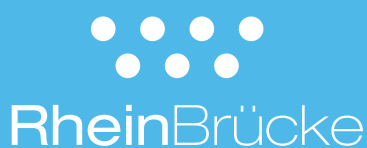

- Diversified line of business; challenges in consolidation
- Lack in functional information leads to delay in response
- Challenges in controlling the budget across the group companies
- Visibility on cost incurred & pro-active control of cost
- Challenges in ensuring the availability of right material at right quantity at right place
- Business scalability
- Legal compliances

Business Impact

- Increased end user satisfaction
- Streamlined inventory maintenance processes, improved efficiency and optimized costs
- Greater accuracy in output through tools calibration
- Complete and accurate information reporting and production planning through an integrated ERP
- Improved tracking and on-time delivery of projects
- Hassle-free statutory compliance
