

Business Driven, People Focused, Integrated HR and Payroll Solution from RheinBrücke Built on top of Epicor

Features

Lightweight One-Stop Solution for all your HR and Payroll needs | Labor Law Compliance Complete coverage for Hire-to-Retire Cycle | Intuitive Employee & Manager Self Service Portals Configurable Setup & Fluid Workflows

Country Configurations:

GCC

AFRICA

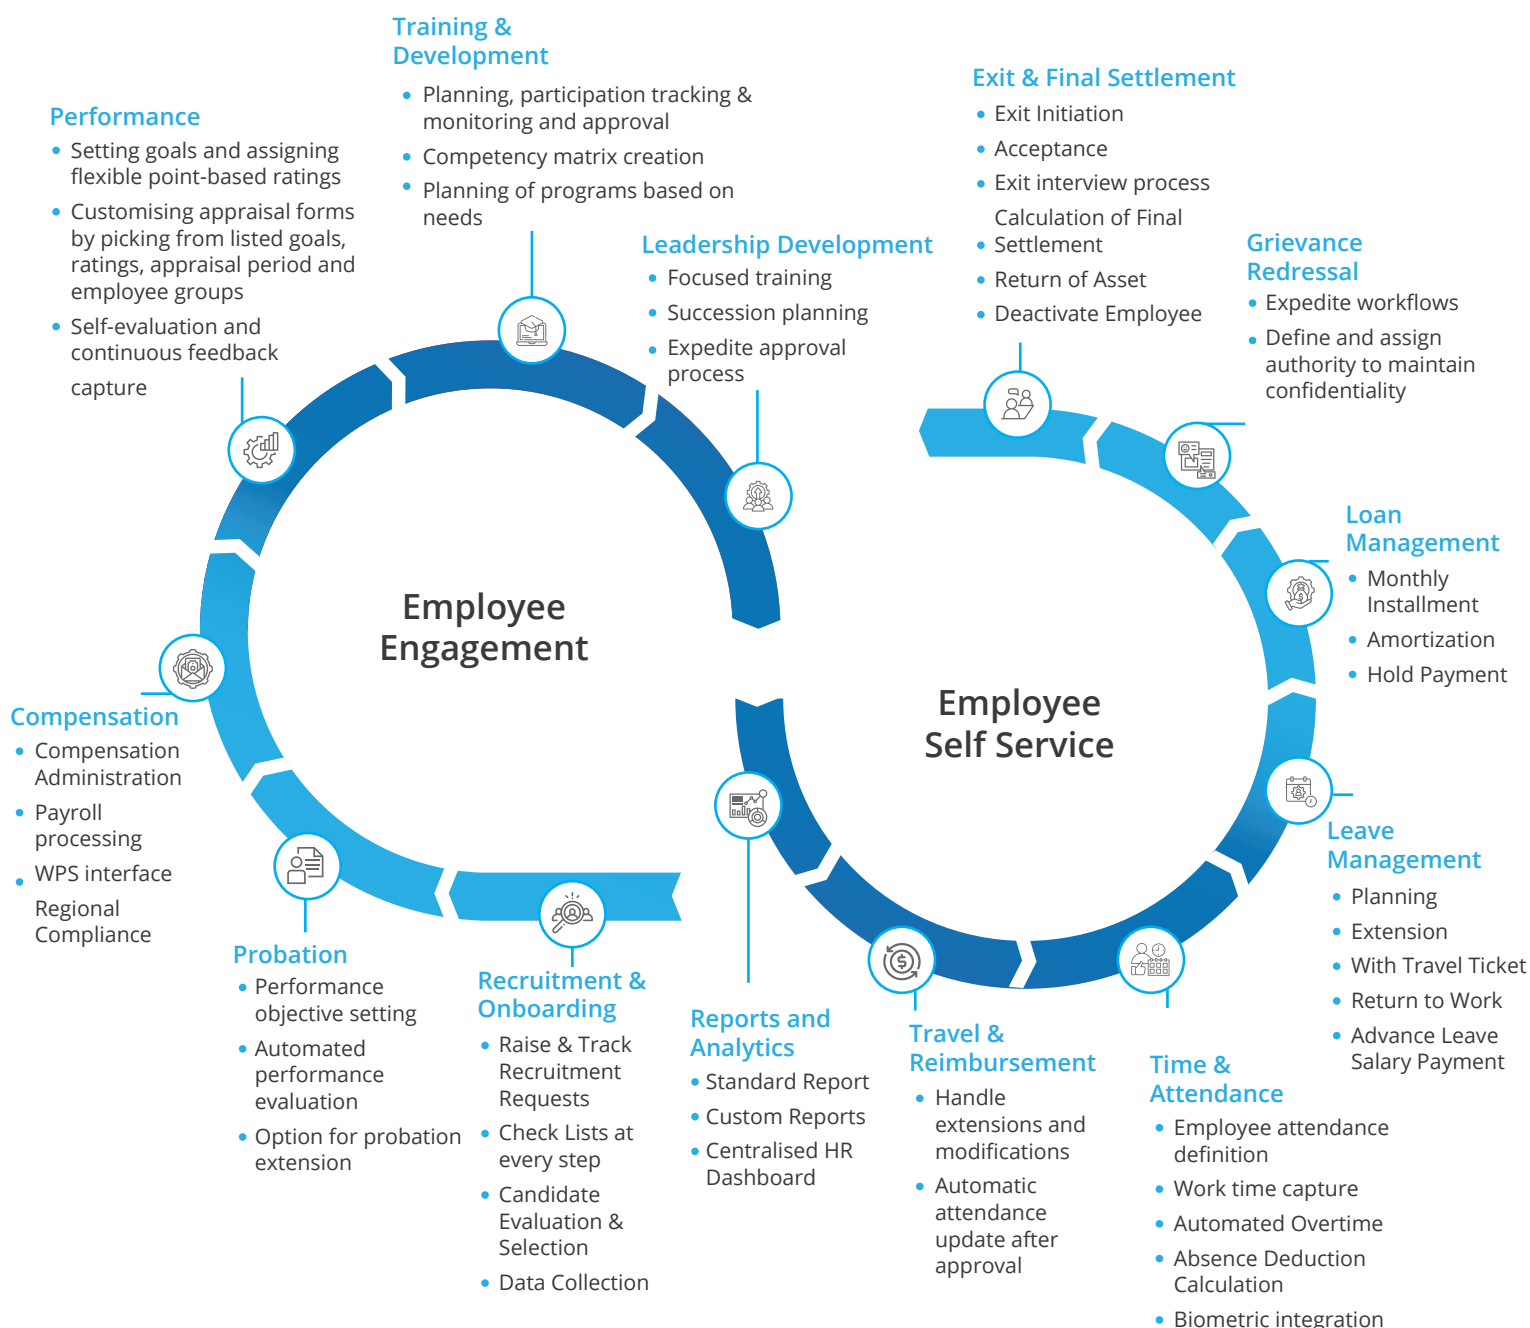

Today's knowledge economy places Human Capital at the core of the business and demands a more proactive and strategic role for HR. Connecting enterprises and their demanding talent with seamless flow of information between them is very critical to enhancing employee engagement and satisfaction in turn resulting in higher productivity and improved retentions.

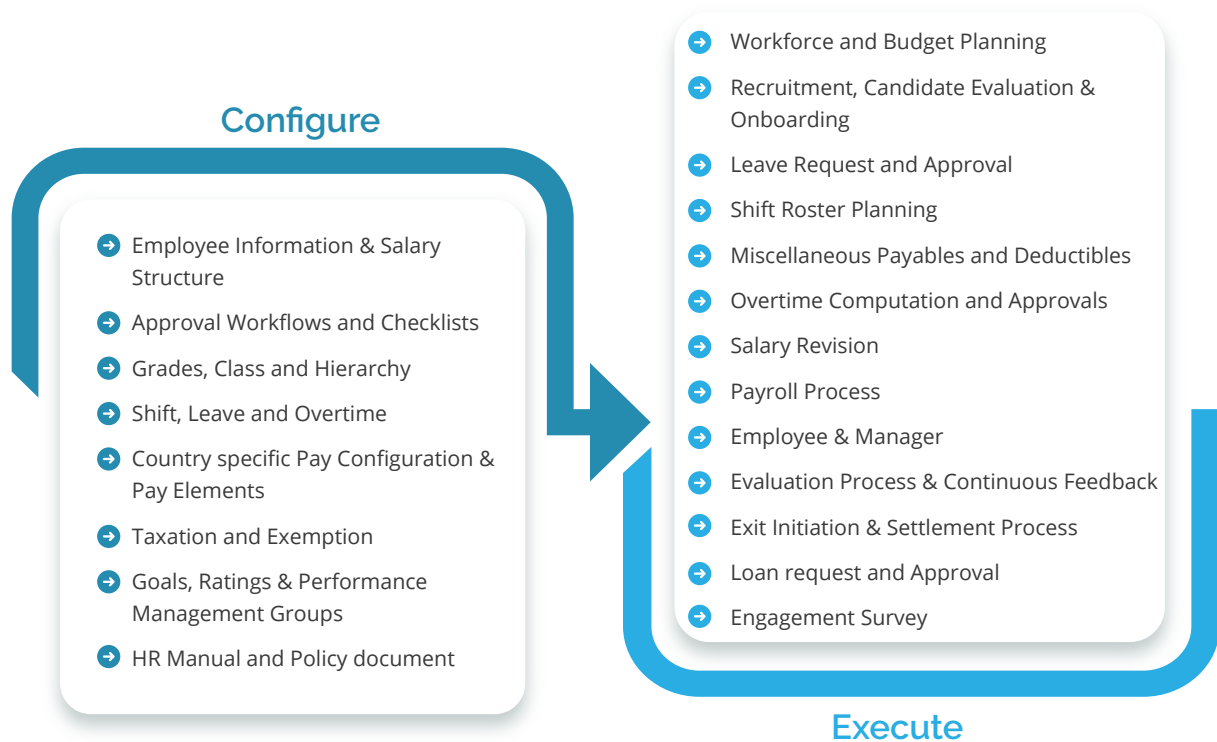

RheinBrücke's Epicor based Human Resource (HR) & Payroll platform offers a flexible, responsive and highly customizable solution to enhance operational efficiencies by managing your globally dispersed workforce in a single software system while ensuring compliance to region specific laws. The platform supports a complete gamut of features from recruitment to retirement.

Compensation Management includes support for computation of complex tax calculations, allowances & deductions across supported locations. A web-based Employee & Manager Self-Service portal provides an all-time, device-agnostic interface for all Employees to remain connected.

**Connecting 20,000+
Employees and nearly half a
million Payrolls processed**

Self Service Portal

The Solution offers all the user-centric features through an intuitive Self-Service Portal designed to improve user adoption throughout the organization enhancing overall efficiency. Employees can submit all requests /applications, managers can approve them, employees can download Payslips and the organization can conduct Performance Appraisals, all through the same portal interface.

Recruitment & Onboarding

RheinBrücke's solution offers all the tools you need to make better hiring decisions while eliminating offline communications. Hiring Managers can raise Recruitment requests with required competencies & get them approved through structured and configurable workflows. HR Managers can search for appropriate candidates, post their profiles, and schedule evaluations. Upon final selection, the selected candidate can be converted to an Employee, get onboard with a customized orientation checklist and be assigned to the requirement.

HR and hiring managers can monitor in real-time the status of all recruitment requests and their fulfillment statuses through a single dashboard.

Probation

Probation typically refers to a trial period during which an employee's performance, behavior, and suitability for a permanent role within an organization are evaluated.

RheinBrücke offers:

- Enhanced onboarding and evaluation processes for new employees with a comprehensive solution.
 - Establishing predefined performance objectives for employees during the probation period.
 - Automated probation evaluations with workflows.
- Providing options for probation extensions as needed.

Time & Attendance

Accurately capturing daily attendance & work times and successfully processing them to reflect in Employee Payroll is critical both for maintaining Employee morale and compliance to labor laws.

RheinBrücke's solution offers several ways to capture work time information:

- Upload of Bio-metric data
- Application and approval of time entry through Self Service portal
- Dashboard with View, Amend and Alert Functionality
- Overtime and Absence Deduction

Compensation Administration

The ability to administer compensation based on the grades of the Employees, configure, and manage various pay elements to meet organizational objectives while complying with regional regulations is often a major challenge for Enterprises.

RheinBrücke's solution offers a highly flexible and configurable Payroll Solution with the capability to handle multiple payroll classes, deduction slabs, incentive and bonus brackets.

Key Features:

Support for multiple employee categories starting from labor class to leadership

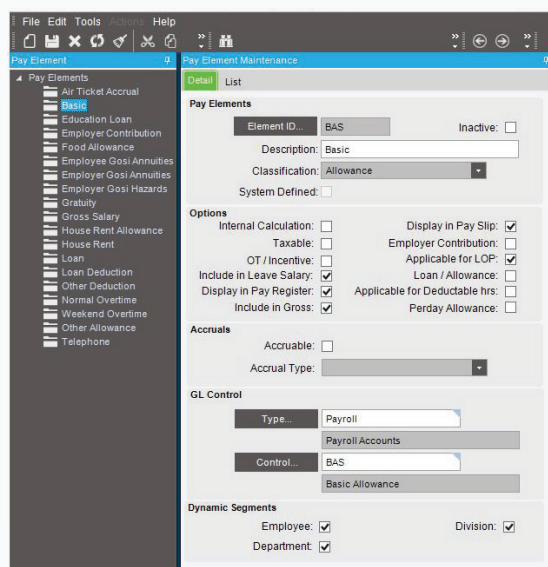

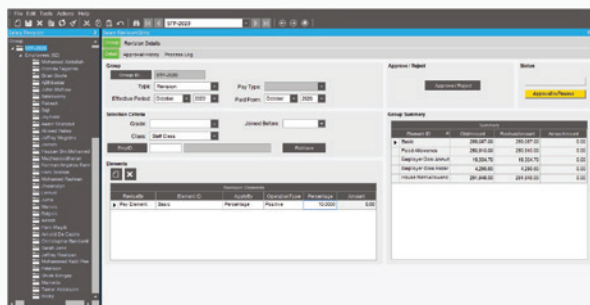

Handling of different taxation rules & multiple currencies

Support for Return-To-Work to recalculate impact on salary

Support for shift allowances and automated calculation based on time sheet entry

Support for transfer for employees between group companies

Mass and individual salary revisions

RheinBrücke's solution offers support for every available labor law in all supported countries making it the go-to solution for regional compliance.

Performance Management

Setting clear and objective goals based on the employee roles, defining & communicating measurement parameters, and continuously assessing Employees' performance is key to the continuous improvement and growth of any organization. Promotions are typically awarded to employees who demonstrate exceptional performance, leadership potential, and a commitment to the organization's goals and values.

Our solution offers tools to meet these needs through a completely configurable Employee Performance Management module, starting from simple subjective to goal-based objective evaluations.

Key features of Performance Management module include:

- ➔ Setting goals and assigning flexible point-based ratings
- ➔ Defining performance management groups of employees
- ➔ Configuring custom appraisal forms by picking from listed goals, ratings, appraisal period and employee groups
- ➔ Employee self-evaluation followed by evaluation by multiple managers
- ➔ HR acceptance of ratings and release to employee
- ➔ Capture and accumulate continuous feedback from colleagues, supervisors and customers and use them at the time of appraisals
- ➔ Dashboard to monitor progress of appraisals
- ➔ Implement promotion evaluation processes with automated workflows.
- ➔ Initiate promotions for deserving employees by supervisors or HR.
- ➔ Upon approval completion, recommended employees receive incremented salary and/or recommended postings.

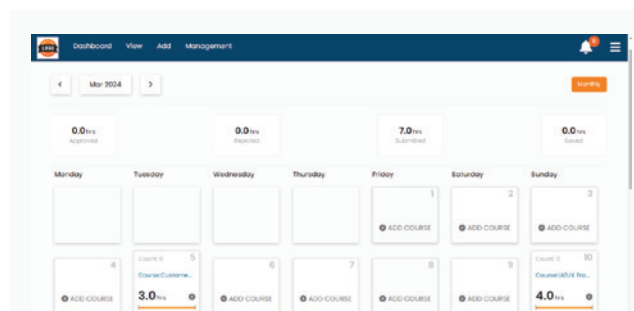

Training & Development

Providing continuous learning and growth opportunities, in addition to keeping the workforce ready to take the next challenge, also improves their morale and worth.

Our solution offers Epicor based Training & Development module with the following key features:

- ➔ Request, Approval, and Enrollment
- ➔ Online Seminar Catalogues
- ➔ Strategic Planning of Training Programs and allocation based on specific training requests
- ➔ Flexible scheduling options
- ➔ Seamless planning of attendee requests
- ➔ Effective participation tracking and monitoring
- ➔ Course Administration
- ➔ Expedited approval process through predefined workflows

Reports & Analytics

Gaining actionable insights from data generated by any business process is key to improving the competitive edge of organizational performance.

Our solution includes several business process specific dashboards and standard & custom reports to intuitively present process data and results in the form of visualizations and tables. An HR dashboard to view all HR processes is central to this module.

Some of the key Reports are:

- Pay Register Report
- Salary Comparison Report
- Final Settlement Report
- Regular Time and Overtime Report
- Monthly Miscellaneous
- Transaction Report
- Employee Accruals Report
- Performance Assessment Report
- Requirements Fulfillment Report

Grievance Redressal

By effectively addressing and resolving grievances, organizations can promote a positive work environment, foster trust and morale among employees, and mitigate the risk of conflicts escalating.

We offer a grievance redressal module with key features like:

- Submitting grievances under the relevant category
- Predefined workflows to expedite the approval process
- Allowing for attaching documents, evidence or screenshots for context
- Defining and assign authority access levels to maintain confidentiality and accountability
- Tracking comments from relevant authorities to progress towards resolution

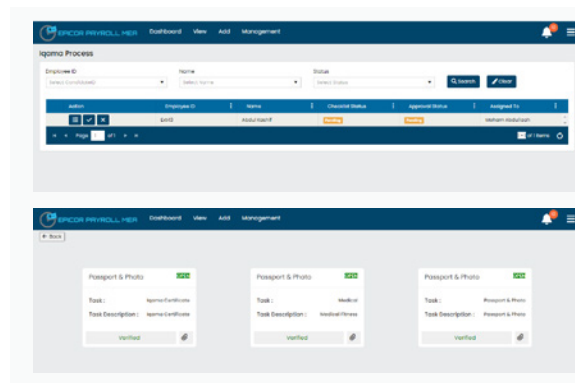

Work Permit Process Checklist

Our solution helps with work permit process checklist submissions.

Some of the key Reports are:

- Creation and customization of checklist as per organisation's requirements
- Submission of applications, with the necessary documents
- Retrieval of documents when required
- Multi-level approval workflows for confirmation.

Leadership Development

One of the key aspects of leadership development is the recognition that leadership skills can be cultivated and developed over time through continuous learning and practice. Organizations invest in creating a culture that values leadership development and provides resources to grow future leaders. The Solution helps with the identification and nurturing employees for leadership roles in the organisation with the strategic planning.

The key features included are:

- Developing personalized succession pathways tailored to different key positions.
- Delivering focused training and mentorship programs to nurture future leaders.
- Overseeing the progress of succession plans.
- Identify and address skill gaps for individual employees.
- Expediting approval procedures using predefined workflows.

Resource Allocation

Workforce optimization helps organizations anticipate and adapt to changes in their environment, ensuring they have a competitive advantage by having a skilled and flexible workforce.

Features include:

- Identifying and proactively addressing talent shortages by pinpointing gaps.
- Easily generating and tailoring detailed job descriptions to suit specific needs.
- Utilising insights from workforce trends based on predefined position vacancies.
- Implementing role-based access levels for different team members to ensure security.
- Adjusting plans accordingly to anticipate changes in staffing needs.
- Verifying employee alignment with job requirements.

Employee Engagement Surveys

Employee engagement surveys are powerful tools used by organizations to measure and understand the level of commitment, motivation, and satisfaction among their workforce.

The key features are:

- ➔ Managing organizational engagement effectively.
- ➔ Customizing question templates to capture workforce insights accurately.
- ➔ Implementing multi-level approval workflows for customized question templates.
- ➔ Receiving actionable recommendations based on survey results promptly.
- ➔ Identifying trends, strengths, and areas for improvement promptly.
- ➔ Encouraging honest feedback from role-based employees.

Travel and Reimbursement

It is an essential aspect of conducting business in various industries and involves traveling to meet clients, attend conferences, conduct training sessions, negotiate deals, or explore new markets.

The main features offered are:

- ➔ Submission of Travel Request
- ➔ Implementation of customizable workflows for diverse approval scenarios
- ➔ Handling of Extensions and Modifications
- ➔ Access and storage of detailed ticket information
- ➔ Automated allowance calculations and Reimbursement
- ➔ Automatic Attendance updating after Request Approval
- ➔ Access to detailed reports for deeper insights
- ➔ Provision of detailed section information to optimize travel logistics
- ➔ Establishment of Travel Orders for Travel Requests

The screenshot displays a web application for Travel Management. The top navigation bar includes 'Dashboard', 'View', 'Add', and 'Management'. The main content area is divided into two sections.

HSE Reporting

- Raise HSE incidents and record details
- Add documentation and proofs
- Do root cause analysis and investigation
- Track workflow, close incidents

Exit Interview

Exit interviews are typically conducted by HR personnel, managers, or designated representatives and aim to understand the reasons for the employee's departure, gather feedback on their experience with the organization, and identify areas for improvement.

We offer features like

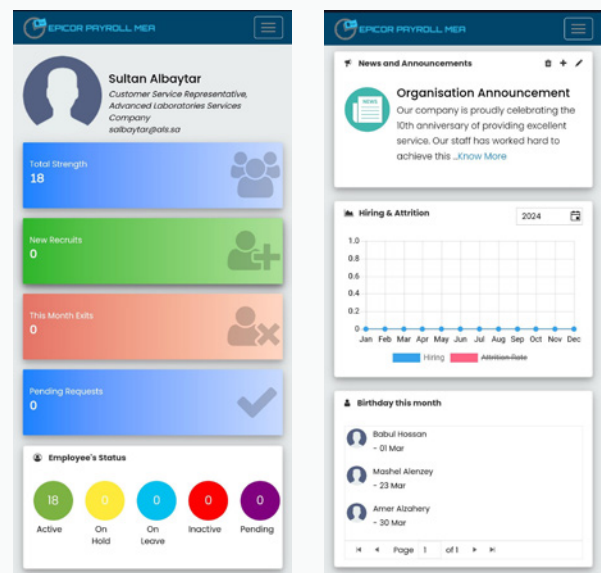

- Gathering insights about employees' experiences and perspectives upon their departure.
- Initiating exit interview surveys using predefined questionnaire templates.
- Encouraging departing employees to share their experiences for valuable feedback.
- Facilitating a smooth transition and timely capture of feedback.
- Integrating exit survey data into HR systems for efficient management and analysis.

Mobile Capabilities

Mobile capabilities refer to the various functionalities and features that mobile devices possess, enabling users to perform a wide range of tasks and activities while on the go.

Our solution offers mobility for the payroll and HCM process
